PROJECTS

- Designed a multi-line P&C insurance platform that automates underwriting risk scoring, pricing, and expected-loss analysis while monitoring claims severity, reserve adequacy, fraud indicators, and leakage exposure. [Aegis Insurance Command Center](#)
- Developed an audit-ready evidence platform connecting underwriting decisions, rule versions, cloud controls, and policy-as-code mappings across NIST, ISO, SOC 2, SOX, HIPAA, GDPR, and COBIT. [Aegis Evidence Studio](#)

PROFESSIONAL EXPERIENCE

Annual Fund & Database Specialist Intern

The Salvation Army — Southern New England Division | Hartford, CT | Jun 2026 – Aug 2026

- Managed divisional donor data integrity across Salesforce and Raiser's Edge gift entry, reconciliation, reporting, and maintaining audit-ready records for the Advancement team.
- Partnered with IT to connect Salesforce and Raiser's Edge data into Power BI and Excel reporting workflows, giving leadership up-to-date visibility into donor giving and improving reconciliation efficiency.

Research Assistant – Office of Institutional Research & Strategy

Quinnipiac University | Hamden, CT | Apr 2025 – May 2026

- Standardized compliance documentation and supported federal regulatory submissions (as Integrated Postsecondary Education Data System (IPEDS), National Student Loan Data System (NSLDS), and Financial Value Transparency Reporting) by generating and auditing reporting extracts via Informer.
- Consolidated enrollment, academic records, and financial aid data across Ellucian Colleague for 9,200+ students, structuring validated datasets to power institutional dashboards and official reporting.

Client Solutions Specialist

Zimbabwe Insurance Brokers | Harare, Zimbabwe | Jan 2023 – Dec 2024

- Analyzed client risk profiles, exposure data, and claims histories in Excel and evaluated market options to support coverage structuring, pricing, and insurer/reinsurer negotiations.
- Leveraged Salesforce and HubSpot CRM data to identify prospects and track business development, building pipeline dashboards and KPI reporting on conversion rates and revenue forecasts.

Claims Analyst

First Mutual Holdings | Harare, Zimbabwe | Nov 2020 – Dec 2022

- Analyzed claims data and loss drivers across auto, liability, and property portfolios to identify subrogation opportunities and support settlement and reserve decisions.

- Reported on claims cycle time, loss ratios, reserve adequacy, and adjuster performance using Power BI dashboards and SAP/Excel data, partnering with Underwriting, Legal, and Finance on risk and claims-handling strategy.
